

Carl -

In this folder you will find
the PF/AB report due on 28³⁰

25X1A

August to [REDACTED]

Also enclosed are the contributions
of PMSAC, OND, OSI, OEL and OCS.
(OSP & OSA) report separately thru the
NRO.

Enclosed too is DD/5+5 portion
of the ^{OSI} PF/AB report as put together
by [REDACTED]

25X1A

There is a letter of transmittal

Prepared by [REDACTED]
Satisfactory [REDACTED]

25X1A

Note:

Restricted Data material in
this report. Have not stamped outside
cover. May be able to sanitize pages
or otherwise delete.

Note - Life Sciences item (G8) on
Soviet CW capabilities. May be
misinterpreted?

OSI has been chopped down
considerably but there still remains
a good portion - perhaps still too much.

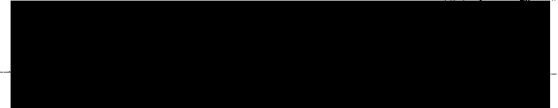

requested a copy of

Section E 6 (Signals Intell) which

25X1A

was coordinated with

by OEL.

Section G 1 - Daily Surveys - does
not mean to imply that this
circulates outside Agency.

25X6

G 1 - Repers^{somewhat} of

with I 3 but different approach

Section I - R + D

I decided to keep O R D Contributions
intact since it read well. May not

42
suit the short paragraph style of the
Agency report - though it fits the Special
report style we used to submit.
Ple check O&L refs to System 1713 frequency,
M - Deficiencies - System 90R

25X6

Note: OEL ref to [REDACTED]

ORD & OES Contributions are somewhat
long but seemed worthwhile.

OSI - no. chopped

FSM 5 HC - Claimed none.

25X1A

Have arranged for [REDACTED]
to double-check Security classification.
